-Lisbon Patriot: Those liability insurance fellows who wanted a referendum on the new law regulating such insurance, have gone into a frenzy and are resorting to every wile and trick to make the people believe that the Equity association is an honest organization and that Governor Cox and his aides are a lot of yeggmen ready to blow safes to secure the referendum petitions. No same person would believe such a thing. Stop to think what the effect of such a robbery would have been. It would have been just the thing that the Equity association would have welcomed. The only wonder is that a little dynamite was not used to carry out the fiasco. Governor Cox is standing be tween these insurance fellows and the people. The new law is popular with the workingmen who do not care to go into costly litigation in the courts to adjust a claim. Even the manufacturers are in favor of the law, as it takes them out of the hands of those liability fellows. Why should a governor fighting the cause of the people resort to trickery and burg-In charging that his agents wanted to crack a safe, these enemies of the people directly implicate Gov. Cox. The people will hardly stand for that. The indications are that the referendum petitions will be thrown out. It really seems a pity that they could not have gone to see what the voters would do at the polls.

Clynn Shows His Authority as Acting Governor.

By James J. Montague. Albany, N. Y., Aug. 20 .- A statement, which is virtually a proclamation of his authority as acting gov ernor, was prepared Tuesday afternoon by Martin H. Glynn, after a consultation with the Democratic leaders, including Senators Wagner, Frawley and Blauvelt and Speaker Smith of the assembly. It will be issued today unless present plans are changed Following this action the force of executive clerks will be directed to report to Mr. Glynn and William Sulzer will be left in the executive room with his secretary and the door tender.

Changes Combination of Lock. Informed of Glynn's proclamation, Mr. Sulzer sent for the locksmith who changed the combination of the lock n which is kept the privy seal and the private state papers. This action was Mr. Sulzer's only reply to the opinion of the attorney general that he is no longer the governor of the state.

In order that Mr. Glynn's decisive action may be backed up by public opinion, the Frawley committee decided to return to New York in an endeavor to collect more evidence of "mal and corrupt" conduct on the part of Mr. Sulzer. It is no secret that a publicity campaign launched by Sulzer's friends has given them some uneasiness. Lynn J. "The managers appointed by the as

sembly to conduct the impeachment proceedings of Gov. Sulzer met in the office of Majority Leader Levy in room 235 of the Capitol. The board wishes it known that it is extremely desirous that the proceedings shall be conducted in a full, fair and impartial manner and it refuses to be drawn into any undignified controversies save that it deplores the fact urged by unscrupulous persons that this case has been prejudiced. The board is carefully considering the evidence presented to it and marshalling the same with a view of presenting it before the court of impeachment composed of the court of appeals and the senate of this state and of expediting and facilitating the trial, that full and equal justice may be done. The proofs will be squarely presented to the high court of impeachment and the only issue is the guilt or innocence of the impeached governor. Constant effort is being made to cloud and befog this real and only issue. Technicalities will not be indulged in by the managers. The trial must be full and free. The people are entitled to know and they will know the truth. After considerable discussion in respect to the retainer of counsel, it was determined that counsel shall be retained and accordingly ex-Senator Truman Beckett and Eugene Lamb Richards were engaged. Attempt to Burn Tea House.

Tarrytown, N. Y., Aug. 20 .- According to reports in Pocantico Hills an attempt was made recently to burn John D. Rockefeller's tea house, which two sons called on H. C. Lynn and cost \$50,000. The story is that a workman found a bunch of inflammable material hidden in shrubbery near the house. Guards were placed on duty. About six weeks ago Mr. Rockefeller's stable was destroyed and two weeks later his sculptor was burned out.

WHAT DOES YOUR SOIL LACK?

On Thursday, August 28, at 10 A. M., a fertilizer meeting will be held on the farm of M. D. Shelton near Garfield. Prof. A. G. McCall of the College of Agriculture will lead the discussion.

"Fertilize the soil not the crop," is the slogan of the soil fertility experts at the College of Agriculture. They say it is a mistake to talk about "corn fertilizer" and "wheat fertilizer." Ex periments show that an application of whatever element is lacking in the soil will increase the yield of all the crops grown. The important thing, then, is for each farmer to find out what his soil lacks. The object of this meeting will be to find out what the soils of this vicinity lack most "Yes; she's a social butterfly and he's an amateur aviator."—Pittsburg plying this lack.
